

Wildlife Education in India -- 50th Annual Wildlife Week -- October 1-7, 2004

Report of celebration of 50th Wildlife Week 2004 at Megamix Nature Club, Assam, Debojit Phukan*

Wildlife week for us was started by riding bicycles in a group campaign for Wildlife Conservation, and studies in two remote fishing sites – Khojua and Khonamukh. Posters and leaflets were distributed to the fishermen. Status of river dolphins, turtles, river sharks, endemic fishes and water birds was explained to them. Next day was an in-house event in “Megamix Club” conference hall. Selected students from college and H.S. Schools were trained on topics of habitat loss, man/animal conflicts and reasons, environmental safety and wilderness. In addition there was an exercise explaining wildlife facts by us Zoo Outreach Organisation wildlife packets and fielding. That afternoon there was a mid-town press meet as a part of 50th Wildlife Week celebration. Seven press reporters from eight Assamese dailies assembled with the invited guests, including 5 activists from “Megamix” as host and hundreds of citizens.

The third day event a trip to the nesting colony of open-billed storks (400 nest) located in the village Bamun Goan. Birdwatching, experiencing various smells, interactions on wildlife, roadside plantation and mini training were conducted. Harhi College was the venue for fourth day. A seminar on biological diversity was arranged and participants were including students, educators and local citizens as well as representatives of “Megamix” and Assam Science Society as resource persons.

The biggest river island in the world is “Majuli” (Brahmaputra) in Assam. Majuli is an important Bird Area (IBCN) and a proposed World Heritage Site. During Wildlife Week Biomix Nature Club collaborated with Megamix Nature Club for a day like a election rally with large crowd, hand made posters, banners, meetings, quizzes and interactions. Listening much and learning from marked the festival day. To equip “Biomix Nature Club”, Megamix awarded a set of wildlife packets produced by Zoo Outreach Organisation.

Wildlife Week Report at Lucknow Zoo, Eva Sharma*

The Lucknow Zoo successfully organized and completed a bear awareness and educational programme for school children with the help of the educational material provided by you during Wildlife Week. In that programme children played a drama, which was based on bear awareness and a conservation script. At the time of the programme children were wearing the T-shirt and masks. The play was very successful and appreciated by the public and media. Enclosed are photographs of the programme for your record. * **Director, Lucknow Zoological Garden, Lucknow, Email: <lucknowzoo@yahoo.com>**

Wildlife Week report, K.K. Muraleedharan*

Wildlife Week was celebrated on 7 October 2004 at State Museum and Zoo, Trichur. Thirty five students from V.V.S.H.S., Mannuthy participated. The programme was inaugurated by Dr. Lalitha, Principal, Matha Amrithanandha Mayi School, Trichur. Classes on the various aspects of wild animals, birds and reptiles with a live demonstration were taken up Dr. P.B. Giridas took classes about elephants. This was a unique venture in the history of Trichur. The programme was organized under the auspices of the Animal Husbandry Department and Zoo Outreach Organization. The inauguration was done by distributing wildlife kits supplied by ZOO to all participants. Other schools are also coming forward for such a programme. As this was the 50th year of the wildlife week, I would like to organize these types of classes through out this year. I would like to make the imagination “run wild to save the wild”. My greatest ambition in life is to become a zoo educator. ***Principal Training Officer, Livestock Management Training Centre, Mundayad, Kannur 670 597 Kerala**

World Wildlife Week Report 2004 Manish Saxena*

The Golden Jubilee celebration of Indian Wildlife Week 2004, was a grand finale, to reiterate the need of conservation of wildlife. With the main objective to associate the younger generation in the wildlife conservation campaign, week-long activities were designed to have active participation of students in every event with the help of educational kits procured from Zoo Outreach Organization, Coimbatore. We lay emphasis on teaching them in a fun and loving atmosphere about the various endangered and threatened species in our planet.

Inauguration Programme:- -- Wildlife Week Celebration start on 1st Oct 2004 with the “Modeling of Wildlife Animal” at the Albert Hall Museum, Ram Niwas Bagh, Jaipur. The programme started with the unveiling of special poster on wildlife conservation by Justice R.P. Saxena, Patron WORLD. The programme was modeling show organized for the wildlife animals. The students walked in the costume of various animals like tiger, lion, bear, monkey, etc. during the show each one was giving message to the masses to get associate in the conservation drive. Our Project officer Punita recited the stories on the monkey, tigers. She explained the students about their basic food habits, behaviours and their correlation with other animals and forest Punita read out and explained the Primates Packets and Tiger tool kits material to the students & small interactive session for the students to encourage their queries on the conservation of forest and wildlife.

2nd Oct 2004 -- On the second day of wildlife week celebration, World has organized the group activities for the students of Ryan international School. Our team under the leadership of our Project officer Punita Mathur along with volunteers presented a small skit on “the vital role of Bats on the earth”. Hony Wildlife Warden Shahid Khan explained the importance of Bats with the help of material to the students. Student then participated in the activities like the memory game, counting of Bats, etc. Students enjoyed the activities and were highly engross and keen to know more about the conservation of the endangered species. The teaching faculty was also enthusiastic to be associated with unique learning programmes for conservation of wild animals.

3rd Oct 2004 -- Third day celebration was the wildlife education programme for the Cadets of National Cadet Crop of Rajasthan Battalion. Our Programme Manager, Manoj Singh gave the educational lecture to the cadets on the “Role of Cadets in the conservation of Wildlife”. Essay competition was organized for them.

4th Oct 2004 -- World has organized a painting competition for the students based on the Kits “Dare to Care for Bears” for the students. Students were divided in to four groups as per the category of bears, category wise their habits and habitat were explained to the students. After that students groups participated in the “One Minute” game.

5th Oct, 2004 -- On the fifth day of the week, WORLD has organized large number of programmes. Young students as wild animals and Adhivasi gave a highly introspective depiction of the relation among human beings, wild animals and forest. Students were divided in two groups- senior & junior group for the “Vanya Jeev Daud” [Wild Animal race]. It was a lovely moment to see wild animals running on the track, as if the jungle has come down to the city. Winners were given the certificate of appreciation by WORLD Organization. Then the time came for the “Jungle Panchayat”, a meeting of all the wild animals, to present their current agenda to the human beings. The young children below the eight years of age participated in it. Each animal presented its views and current need of conservation not only to the judges but also to large gathering of students, media person and parents. The appeal of young students’ touched the hearts of everyone.

6th Oct, 2004 -- The programme began with plantation by the Eco Club Members in N.K. Public school. Our volunteers gave a small skit underlining the importance of plantation for the conservation of wildlife and large number of endangered species in the earth. On the spot quiz competition was organized and eco members were gifted with T-shirts procured by Zoo outreach Organization.

7th Oct, 2004 -- Indian Wildlife Week came to an end with the workshops on "Role of People Participation in wildlife conservation" for the Principals, eco teachers and eco Members of the World Eco Clubs in Jaipur. The participants were given the education material, camp reports, posters and calendars procured by Zoo Outreach Organization. ***Director, Wing of Research in Local Development, 1-GA -12, Jawahar Nagar, Jaipur- 302 004 Rajasthan, E- mail: <world_in@rediffmail.com>**

Wildlife Week -2004 Programme Report, G. Manjunath*

Our IA & BWS-Guttur, Adrsha S.P.C.A-Gorantla celebrated Wild Life Week from 1st October to 7th October 2004 with collaboration of 15 Schools and two junior colleges and one Degree college at Penukonda, Gorantla and Kalyana Durgam Mandals.

Day one: Seminar on wildlife welfare and wildlife crimes We organized one seminar on wildlife welfare and wild life crimes. Sub-inspector of police and Forest officer were the chief Guests. A brief note about wildlife welfare and wildlife crimes explained by the Mandal Veterinary Officer, Gorntla and Sub-Inspector of Police. Mr Ravikumar Forest officer explained the importance of Wildlife welfare using examples and flow charts. Mr G. Manjunath Special Police officer of A.P state for Animal Welfare explained the different types of wildlife trades and wild life butchers using methods to kill the wild animals and also he explained the endangered species list with a slide show. He also explained the student role to stop the wild crimes and help the endangered species.

Day Two : Essay writing and Elocution Competition. A totally 55 students of high school students and college students participated in the essay writing and elocution competitions. Mr Basheer Our Society Educational Officer and other school teachers (our Kindness clubs co-ordinators) conducted this activity. The following were the themes for the competitions that was limited to 500 words (both essay writing and elocution competition). Population growth and wildlife conservation or Wildlife Trade products What can do children to stop wildlife Trade? The participants could choose anyone of the topic. At the end of the competition the essay were collected by the teachers and also distributed the prizes to first, second, third for girls and boys totally six prizes for essay writing winners and six prizes elocution competition winners

Day Three: Drawing Competition. A total of 35 students of 7 schools participated in the pencil, colours competition. Ms. K. Kavitha, Society Secretary and the school teachers conducted this activity. The themes for the competition were - My favorite wild animals, Different types of wild Life Trade and Animal Planet. The participants could choose any one of the topic. At the end of the competition the drawings were collected by the teachers and distributed prizes.

Day Four: Quiz Competition. As it was the "World Day For Animals" we organised quiz competition. At the begin of the competition our Master Trainer Mr G. Manjunath explained about importance of Animal welfare and role of the students. He also explained the necessity of the animals and their present, post, future conditions. The participants age group of 9 to 14 years were grouped into five teams namely Karuna, Gomatha, Kamadenu, Lion and Parrot with five members in each team. They had five round of questions all related to wildlife and welfare. Mr S. Basheer society educational officer and K. Kavitha society secretary co-ordinate this competition. the different types of rounds of questions were 10

multiple choice questions on bear, bat, frogs and animal planet single question showing the charts on Indian wild animals.

Day Five: Workshop with school and college students

Mr G. Manjunath Master Trainer Animal Welfare Board of India explained about dare to care for Bears and different types of bears their identification and their living systems, food systems and bear trading and also bear tracking. Finally he explained the students role in to protect wild animals. He also explained about truth, untruth things of bats. And also trading of bats. He also explained Tiger importance and types of tiger and living systems and tiger trading things. He explained all wildlife crimes and products made from wildlife through slide show with colour pictures. Finally he explained the Indian Wild life protection Act 1972 with section wise and schedule types animals. He also explained the role of the students on wild life protection

Day Six: Games. Our educational officer conducted the following games for school children. How many bears can fill in one T-shirt Find your raky partner, Dancing Bears with masks, Men x Gun = Men, Tiger x Gun = Gun, Men x Tiger = Tiger, Wheel chair, Just a Line

Day Seven: Drama show on Importance of Wild Animals Our society Secretary Ms K. Kavitha prepared one story on wildlife welfare and importance. She given training to 15 school children wearing of wild animal skeleton and playing like those animals. (lion, bear, monkey, tiger, rabbit) and their feelings, their sufferings .their enjoyments at jangle. How to get dangers from man this drama was a good example. And very grate message through to students mind. About 500 students watched the drama.

***International Animal & Birds Welfare Society, Guttur 515 164, Anantapur (Dist.)**

Seminar for Saving Tigers, Khalida Sultana*

I feel that the experience in the Van Vihar, Bhopal was very excited. I enjoyed every moment in the workshop. I acquired better knowledge by completing "Teachers for Tigers" Training program. I am really very grateful to all teachers who had given me a lot of support and kept friendly atmosphere there. I haven't faced any type of problem while transferring the knowledge. I will remember those moments till the end of my life. In these day's I am trying to concentrate my work in Govt. Girls Higher Secondary School, Berkheri, Bhopal and St. Mariya Convent, H.S. School (Private). I also held the Seminar for the people who really interested for saving tigers. In that seminar I tried to enable the people to play a more effective role as a citizen for saving tigers. I also tried to widen the range of knowledge and understanding of wildlife system in order to create a critical awareness about tigers.

***Teacher, Govt. Girls H.S. School, Berkheri, Bhopal, M.**

A brief note on the programme organized during the Wildlife Week 2004, S.C. Verma*

Like previous years, a number of programmes were organized during the Wildlife Week 2004. The Week long celebration was inaugurated on 2nd of October, 2004 by Sri. Laloo Prasad, Honorable Minister of Railways, Government of India. The Chief Guest of the functions was Smt. Rabari Devi, Honorable Chief Minister of Bihar and Sri. Jagdanand Singh, Honorable Minister of Environment and Forests, Government of Bihar presided the functions.

Main programmes during the week included Spot Painting Competition on Forests and Wildlife among the school children of different age group. The winners of each group were given prizes on the concluding day. A special Zoo Education Programme for 100 slum children was organized with the help of a local N.G.O. A workshop on "Upkeep & care of Bear in Zoo" was organized on 5th of October 2004, in which large number of students and teachers of Bihar Veterinary College, Patna, participated and after

a lot of deliberates discussion, the workshop gave various recommendations on various aspects of Bear care in the zoo. On the concluding day (08.10.2004) an impressive wildlife march was organized inside the zoo in which about one thousand students of 25 schools participated. The education material supplied by the Zoo Outreach Organisation was very useful in this wildlife march for creating awareness for wildlife and environment among the children and other visitors of this zoo. Honorable Ministers of Environment and Forests, Government of Bihar, gave away the prizes to the winners of various competitions organized during the week long celebrations.

Conservation Education at Sakkarbaugh Zoo, Junagadh Ramesh D. Katara*

Sakkarbaugh Zoo is a very specialized Zoo mainly focusing on the fauna of Gir National Park & Sanctuary. Zoo has a long history of conservation education and it regularly conducts different activities like Nature Education Camps for School/ colleges, celebration of special events like Wildlife Week, World Environment Day, Earth Day etc.

On behalf of Conservation Education Programme, the Zoo carried out 3 different activities. A Snake Show was organized on 23rd May 2004 for the students of 'Adventure Course' in Rock Climbing from the State Mountaineering Institute, Junagadh. The State Mountaineering Institute together with its regular syllabus of mountaineering deeply concentrates on nature education and contributes the Zoo in its Conservation Education Programme. Eighty students from all over Gujarat State from the age group between 8-13 years participated in the camp and were present during the snake show. They were made aware of the importance and role of reptiles in our environment and the need for their conservation. They also came to know about various misbeliefs related to snakes prevailing in the society.

The students were very excited to see different venomous and non-venomous snakes and even had a chance to touch these magnificent and valuable creatures. They were also scientifically educated by making them explain the first aid techniques for precaution from snake bite.

Together with this, the student were also exposed to the facts and issues related to conservation of bears, bats and tigers with the help of professionally designed attractive education kits on three themes "Just Bats about Bats", "Dare to Care for Bears" and "Tiger Tool Kit" prepared by Zoo Outreach Organization. The students were provided information on the ecological importance of such animals from resource person Mr. Punil Gajjar at the Zoo. The kits provided very informative and a sensible media to educate the students. The students wore the masks and visited the Zoo together with their mountaineering instructors. The instructors too had a very good experience at this occasion.

A similar kind of programme in the form of NEC on 2 successive days in the forest of Gimar was organized by the Zoo and 'Kadvi Bai Virani Kanya Vidhyalaya' Rajkot 110 students from 8th standard participated the camps on 3rd and 4th July, 2004. Resource persons Mr. Rasik Bhatt (Scientist – Medicinal plants), Mr. Punil Gajjar, Mr. Bhavesh Trivedi (Education Officer – WWF – Rajkot) and Mr. Rajan Jadhav accompanied the students during this camp. They were taken through a beautiful trek experiencing the dry deciduous forests and its faunal- floral diversity. They walked through lush green forests and reached a place called 'Bordevi' of Dungen South Range, Gimar Forests. During the post lunch session resource persons discussed various aspects of tigers, bats & bears i.e. distribution of these animals in the World and Gujarat, habit and habitat, feeding behavior, status of the species in wild and captivity, threats, how this species breeds in Zoos etc. Mr. Rajan explained the students keenly with the help of education kits giving examples of habitats and the fauna found in the forests

of Gir and Ginar. Education packets were distributed and the students also filled up the pledge cards. The students pledged to collect information regarding the amazing but endangered lesser-known fauna and circulate it to their friends, neighbor and parents. They also pledged to protect the natural habitats of the faunal diversity existing in the domestic areas of their city. After the session the students were taken back through a different trek to reach the destination.

We are thankful to Zoo Outreach Organization, ZOO/ ALERTIS, USFWS Rhinoceros and Tiger Conservation Fund, Wildlife Conservation Society (W.C.S.), Chester Zoological Gardens, Bats Conservation International (BCI), Fauna and Flora International (FFI) and Riverbanks Zoological Park and Botanical Garden for providing very attractive and informative education tool kits. It proved to be very sensible media in educating the school students. **Zoo Officer, Sakkarbaugh Zoo, Junagadh Gujarat**

50th "Wildlife Week" at Sakkarbaugh Zoo, Ramesh D. Katara1* and C.N. Bhuva2*

50th "Wildlife Week" was celebrated during 2nd to 8th October 2004 at Sakkarbaugh Zoo, Junagadh. Various events were organized with addition of new ideas this year during the "Wildlife Week". It was very surprising to receive good number of entries from educational institutions in spite of routine examinations during the 'Wildlife Week'. Some students attended the competitions after finishing their examinations at respective schools. This shows the level of interest 'and awareness of educational institutions towards wildlife conservation in this region. Students from Bahauddin Science College, Junagadh voluntarily participated in organizing all the activities during the week, which was a new experience for the Zoo.

The "Wildlife Week" 2004 was inaugurated by the Vice Chancellor, Junagadh Agricultural University on 2nd October 2004 at the Sakkarbaugh Zoo Campus.

Details of events organized during the "Wildlife Week" 2004 2nd October 2004 -- A Painting Competition at the Zoo campus was organized on 2nd October 2004. About 293 participants from 60 schools / colleges participated during this competition. Three different subjects based on wildlife and conservation was issued to the participants. Resource persons and teachers from school / colleges at local level actively took part in management of the event and successfully organized the event.

3rd October 2004 -- An Elocution Competition was organized at the Zoo campus on 3rd October 2004. Same procedure was adopted for selection of participants for the competition. There were 2 divisions mainly i.e. 8th to 11th standard and college students. 31 participants from 26 schools / colleges participated during this competition. Three subjects based on wildlife and environment was issued to the participants. Resource persons and teachers from school / colleges at local level actively took part in management of the event and successfully organized the event.

4th October 2004 -- Two events were organized on 4th October 2004 i.e. Essay Competition and a Workshop on "photography and use of binocular in wildlife observation". There were 2 divisions mainly i.e. 4th to 7th standard and 8th to 12th standard students. 151 participants from 34 schools participated during this competition. Two optional subjects to each division based on wildlife and environment was issued to the participants. Resource persons and teachers from school / colleges at local level actively took part in management of the event and successfully organized the event.

5th October 2004 -- A Quiz Competition was organized on 5th October 2004 at the Zoo campus. There was only 1 division in this event i.e. students from 7th to 10th standard participated in the competition. 1 team having 2 students from each school was screened at school level. 19 teams took part from various schools

of this region in the Quiz Competition. The competition was based on subjects like biodiversity, Sanctuaries and National parks of India and issues related environment and wildlife conservation. 6 teams were selected from 19 teams after a series of rounds for main Quiz Competition.

Concurrent activities during the week Information on snakes and its conservation was disseminated to the visitors and focused target groups together with live demonstration of different species of snakes at the Zoo campus during the entire "Wildlife week". The students from Science College and Snake Park keepers at the zoo organized this event very effectively. About 5000 students together with visitors took part during this event. During the first 2 days of the week, the Zoology students Bahauddin Science College helped in imparting scientific information regarding wildlife at the Zoo to the visitors and students from different schools of this region, which proved very effective.

Closing ceremony of Wildlife Week 2004 was organized on 8th October 2004 at the Zoo Campus. 28 winners from different competitions standing at 1st, 2nd & 3rd positions were encouraged by issuing certificates and exciting prizes during the ceremony. An exhibition of selected paintings of different participants was also held during the last day of the week at the zoo campus together with the closing ceremony.

Acknowledgements -- Sakkarbaugh Zoo management is very much thankful to the resource persons & teachers from school / colleges for voluntarily participating in organizing the events throughout the entire 'Wildlife Week' **Zoo Officer, Sakkarbaugh Zoo, Junagadh Gujarat**

Wildlife Week Programs at Kota, Rakesh Vyas* This is to thank you for the wonderful conservation education material provided by your organization for the Wildlife Week Programs at Kota. The material was properly distributed after making the participants aware about the problems faced by the wildlife. The material has been appreciated by the participants, their teachers and parents alike. During the week long celebrations this year painting, essay, fancy dress and quiz competitions were organized. The students were taken for field trips to Darrah and Jawaharsagar Sanctuaries. A rural program for the school children of Udupuria village was also organized. Some of the material is being used at the Interpretation Centre started at the zoo recently. ***2 P 22, Vigyan nagar, Kota 324 005, Rajasthan, Email: <lanceroswindmills@yahoo.com>**

The 50th Wildlife Week celebrated from 1st to 7th Oct. by environmental activist group, Satyajit Bayan*

The 50th Wildlife Week celebrated from one to 7th Oct. by environmental activist group "Green Land" in collaboration with Zoo Outreach Organisation, Coimbatore. Wildlife is an indispensable natural heritage to our country so the celebration to wildlife week enhance people's awareness about the wildlife. Due to lacking of awareness & consciousness of people wildlife suffers heavily in these days. A Quiz programe was conducted by experienced Quiz Master Manikam Pathak and Paban Das. Total 18 teams of different schools of Barpeta district had participated in the programe. The topic to the Quiz competition was wildlife & its conservation. On 3.10.04 a cleaning mission was started in Barpeta town by the members of G.C. About 60 members participated in the mission. After that the team went to Barpeta Kirtan Ghar (Vaishnavia believers) where a legal deer cage was kept, but its condition is very bad. Because of mishandling by the authority. So the members of G.C. took part in the cleaning of the cage by proper scientific way.

On 4.10.04 a discussion about Turtle conservation along with other Herpetofauna was held at 3.p.m. in the office of the organization. After the lovely discussion, the guest speakers and participant

students took part in another discussion where some local people also participated. After the discussion the herp's kits were distributed among the participants.

On 5th & 6th Oct a field trip was conducted by the organization. The trip was conducted on the river bank of Makhanda river where several species of Birds & herpetofauna's were seen. Particularly some noted species are Bufo species, Rana species, Hyla etc. along with a flap shell turtle (*Lissemys punctata*) was seen by the tracking party. The weight and length of the turtle was recorded. It is a schedule one species but very common in Bpt town. But the common people always captured the species for its meats. After the completion of the tracking camp some herpetofauna communication game was conducted by the environmental educator Satyajit Bayan. After the programe the kits which are supplied by Zoo Coimbatore laborated with participants. On 7.10.04 the prize distribution ceremony was held in the office of the G.C. The chief guest was Mr. Mripen Roy, a leading nature lover & district Museum officer of the Bpt. Dist. of Museum of Government of Assam. The guest of honour was S. Bayan, Pr. Greenland, Dr. Ranjit Hazarika, lecturer of Zoology Department several parents of participants students were also took part in the presentation programe.

The 50th WL week was a very successful one. The members of G.C. thanks greatly for their encouragement and collaboration with Zoo Outreach Organization. The G.C. always belief that conservation of wild life & environment is the only solution to save human kind, so it is our duty to enhance our awarness programe activities to the every sphere of the society. So that we can conserve our environment. Lastly we again thanks to Zoo-Coimbatore for their help & encouragement. ***Green Land-Pres., Vill-Madhy Metuakuchi, Opp. 918 No.L.P. School, Dist. Barpeta 781 301, Assam, <green_wildorg@yahoo.co.in>**

Nature education program conducted by Nature Club Surat Snehal Patel*

Nature Club Surat is doing activities like slide show, snake show, Photograph display, adventure activities, tree plantation, quiz competition, etc to aware children of schools. Sunshine preep school had attended the nature education program conducted by Nature Club Surat. In this program tortoise, turtles and terrapins were shown to children, differences between tortoise, turtles and terrapins were explained to them. Start tortoise and Ganges soft shell turtle were displayed. Information about bats were also given to them how they are useful and what is their role in nature was explained to them, more over a film on bats in which what kind of habitat bats like, what and how they eat, how many species of bat are there etc. was shown to them. General information about different flowers, plants and trees was given to them, they saw different birds, they learned not to destroy nature and not to harm creatures. *** Nature Club Surat, 81, Sarjan Society, Athwalines, Surat 395 007, Gujarat**

Note from the Editor : We had over 80 institutions who applied for and got materials for the 50th Wildlife Week. We are impressed with all the excellent programmes conducted by these institutions. However, it is not possible to publish their reports in full in ZOOS' PRINT magazine. Therefore we have cut them cruelly and are sorry for this. The full edition of the report as well as the very attractive photographs of kids learning and having a great time has been uploaded onto our website and can be viewed there in living colour. All reports and photos are on both websites : www.zooreach.org and www.zoosprint.org.
