Acknowledgement:

I am thankful to Officials of Andhra Pradesh, Forest Department, Mr. Parthasarathi, in-charge Curator (S.V. Zoological Park), Dr. TH Thoibasingh, Vet Asst Surgeon, for their encouragement and generous support. I am also thankful to Mr. SelvaKumar Incharge F.R.O and Mr. A. Manohar Bird Keeper

Attention Zoos' Print Journal Readers

We are unable to post Zoos' Print Journal as part of Zoos' Print from this issue. Although we can post it separately it will take at least 3-6 months to get a postal concession for Zoos' Print Journal. With a postal concession, it costs just Re. 1 to post, but without the concession it costs upwards of Rs. 7.00 per issue depending on the number of pages. This makes the entire cost of sustaining Zoos' Print Journal prohibitive. We therefore seek your support and understanding to this problem and help us overcome this problem until we get the postal concession.

We have NOT stopped publication of Zoos' Print Journal. The April issue is printed and posted by Book Post on the usual date of 21st of March. We will continue the same publication frequency to the extent possible but we need to know is how many of you read Zoos' Print Journal, and whether you will be able to pay for the additional postage until the end of this year. If so, the postage amount is about Rs. 100.00 extra for this year for ZPJ only. We are mailing a separate questionnaire for you to which we hope you will respond. Zoos' Print Journal is available free of cost online at www.zoosprint.org. It is a completely open-access journal so even if you decide not to pay more for postage, the journal is still available online on the 21st of every month.

Thanking you for your understanding, support and cooperation.
